★★★★★

With a population of just over 4 million, there must be some very good reasons why Ireland receives approx. 7 million tourists per year to its small island. The Lonely Planet travel guide recently named Ireland as the World's Friendliest Country in a list of top travel destinations. They say that visitors are in for a treat and that Irish people have a great sense of humour, welcoming nature and ability to have fun in good or bad times.

Ireland is an increasingly popular destination for students of English from all over the world, with over 130,000 students choosing to come to Ireland to learn English. Ireland was named the country with the most satisfied students in 2015, topping the charts in a study of over 17,000 students across Europe.

Ireland offers quality assurance for its English language sector and is seen as a bona fide alternative destination to the UK & Malta in Europe. An added benefit is that Ireland is the only English speaking country in the Euro Zone.

People who think that maybe the Irish accent is difficult to understand are in for a pleasant surprise when they arrive. Although there are many different accents in Ireland, like in any English speaking country, most Irish people speak clearly and slowly, in particular when talking to non-native speakers of English.

Another attractive lure for English language students to Ireland is the opportunity to connect with career opportunities in leading global companies located in Ireland. Ireland is home to the European Headquarters of companies such as Google, Facebook, Twitter & LinkedIn.

Ireland is full of surprises and a great destination for an English language course!

Apollo Advantages

Apollo Focus

We offer an optional 5 hours’ extra tuition per week, completely free of charge with a focus on project work and communication. Apollo Focus takes place twice per week during the activity time slots instead of 2 activities. Students can choose the Apollo Focus option when with us at the school.

Apollo Workbooks

Apollo Juniors each receive their very own course workbook filled with interesting topics & activities to follow during their course. Students will bring their workbook home giving them a sense of accomplishment & giving parents the opportunity to see what their son/daughter has been learning while in Ireland.

Apollo Real World Learning

Classes are designed specifically for students of this age using engaging topics & material. Our teachers use unique teaching methods to encourage students to speak English without feeling self-conscious.

Apollo Chill Out Rooms

Apollo Junior Programmes have become renowned for our Chill Out Rooms where young learners can experience our Oculus Rift Virtual Reality (VR) headsets as well as PlayStation Gaming. Our Chill Out Rooms are always busy during free time periods and it’s a great way for students to meet new friends, especially if they are feeling shy at the beginning of the programme.

Teams for Individual Students

As a lot of our students come to Apollo as individuals, we operate a system of teams and Team Captains whereby students have a daily meeting with their Team Captain (Apollo staff member) which ensures students have all information they need and have a daily point of contact with us. We also have an app that parents and students can join to keep updated about the weekly programmes, team lists and much more!
