If you choose one-to-one lessons, you can be guaranteed to be placed with a qualified English Path teacher. On first meeting your teacher they will work with you to identify your strengths and weaknesses and then make a plan on how best to help you reach your goals. You can opt to study on a day and time that suits you. Perhaps you are only free at 10am on a Saturday morning or you may want two hours each day to help you prepare for a new job or exam. In any case your teacher will be there to support and guide you.

# Accommodation

Your accommodation is a really important part of your experience when studying English abroad. There are lots of different options available, depending on what you would like.

Some students like to stay with a host family, so they can be more integrated with the local culture. Others people really like our house shares – it's becoming a really popular choice! – where they share a house or apartment with other language students. Many choose the residence, which are usually blocks of rooms or apartments, with students sharing facilities, like in university.

It's a good idea to book at least a few weeks accommodation with the school at the start of your English course, to make sure you have somewhere to stay when you arrive in the country. Speak to the accommodation managers in our schools to arrange accommodation, or if you need a hand with anything – it's our pleasure to help. English Path works with trusted agencies to organise your accommodation.

## Homestay

For many students studying English abroad, a large part of their experience is to come in contact with the local culture, and the best way to do this is to stay in our homestay accommodation.

Homestay can offer you a huge number of options, including single or shared rooms, half or full board and en suite or shared bathroom. You can even choose one of our "executive" homestays, which are located closer to the school.
